We still have a sneaking suspicion that Villa has a German ancestor somewhere in his family history.

Don't fail to see Sarah Bernhardt in "Mothers of France" at Romans' Opera House, this, Thursday night.

Historians are engaged in an investigation to determine when the first submarine boat was used. They have strangely overlooked the evidence of old Jonah.

After the United States had debated for eight hours whether the word "intended" should be substituted for the word "calculated", that body must have adjourned with very jaded intellects. How proud we should be that not the smallest matter escapes the Argus eyes of our law makers.

A subscriber suggests that in dealing with loiterers we exempt the fishermen. We'll agree to that if they are required to establish the absolute truth of every tale told, and demonstrate that they have really contributed to the meat supply.

Sarah Bernhardt is at her best in "Mothers of France" at Romans' Opera House tonight.

A letter was recently received in Louisville from a soldier "over there" dated under the heading, Sans Origine. His friends were delighted to know where he landed and got out maps of France to locate cape Sans Origine. Their eagerness was blighted on being informed that the words were French for "without origin".

Chancellor von Hertling insists that Russia has not been "dishonored." If the treatment Russia has been subjected to at the hands of Germany contains no element of dishonor, Americans may form a pretty fair conception of what our fate would be were we to fall into their hands, especially if they should decide to mix a little dishonor in their treatment.

EXAMINATIONS.

The examination for the Common School diplomas will be held on May 10th and 11th. The examination for white teachers will be held May 17th and 18th; colored teachers examination, May 24th, and 25th. All meetings held at the court house. Teachers money for the sixth month salary is now ready for distribution.

BUSINESS MEETING

There will be a business meeting at the court house next Monday evening, at 7:30, preparatory to the big Red Cross drive which is to take place this month. Those interested should attend this important meeting.

NEW GARAGE.

Messrs Frank Conn and Ed Dougherty have opened a garage in the Raney stable and are well prepared to take care of all your car troubles. They are both splendid workmen and we can recommend their services. Read their advertisement on the front page of this issue.

DESERTER ARRESTED.

Larue Casey, who volunteered his services immediately after the outbreak of the war, in April 1917, was arrested as a deserter from Camp Shelby, and was taken to Camp Zachary Taylor last Monday morning by sheriff Walker. This is the second offense of desertion by young Casey and a prison term of several years, will probably be his penalty for his last unpatriotic act.

ORIGIN OF "SAMMIE."

It is said when the American troops landed "over there" they were greeted with a thunderous "Hurrah for our friends". The French for this is "Vive les amis" (veev lay zamee). The Americans caught the sound "zamee" and thought they were being greeted as "Sammies", "Uncle Sam's boys". The mistaken nickname was so good that it sticks.

TINDER PLACE SELLS AGAIN

Squire S. T. Sanders who recently purchased the place of Rev. F. M. Tinder, has resold the place to Brutus Wearren, for \$17,500, which is an advance of \$4,000, over the former price. Mr. Sanders is to get the crops this year. The farm contains 77 acres and possession will be given January 1st, 1919. Mr. Sanders, we hope will continue to reside with us and may buy another farm in the county.

BY THE HUNDRED.

One hundred Ford cars have passed through Lancaster this week, on the way to Southern points. Some going through as far as the coast. They were being driven from Cincinnati and naturally come through our city, being much nearer route to all points south. From here they go to Crab Orchard, thence to Broadhead, Mt. Vernon, London, Middlesboro and Knoxville, all over the Dixie Highway.

IN LIVERPOOL HOSPITAL.

Mr. and Mrs. Terrill Layton have just received their first message from their son, Brewer, who left for "Over there" about March 1st. The message stated that he was in a hospital in Liverpool, England, but had about recovered from an attack of mumps. The family is of course very much gratified to hear something, even though he should be in the hospital, but the letter stated that he was about well and would soon join his company at the front.

RED CROSS NOTES.

The Garrard County Chapter of the Red Cross has shipped during the month of April the following supplies:

110 hospital bed shirts, 2100 surgical dressings, 8 sweaters, 15 pairs of socks, 7 helmets and 8 pairs of wristlets.

The headquarters which recently moved to the large room over the Citizens National Bank, are now delightfully located, the large room being well lighted and peculiarly adapted for the work.

NOTICE.

After this date we will discontinue our "Free Column" to farmers and run instead a "Classified Column", the rate in this column being one cent a word, but no advertisements taken for less than twenty cents. We do this for so many are under the impression that we have been discriminating in favor of the farmers and to put all on equal footing, we have decided to make the change. Those not using the "Classified Column" will be charged the usual price of ten cents a line.

By mistake, some one took the wrong overcoat from my store last county court day, and left a smaller one. Please return. Coy S. Sanders. 11-pd.

POPULAR BOY

Called Into Service Of "Uncle Sam"

"Billy" Miller.

The above is a fair likeness of our good friend, William Ferguson Miller, who was called into the service of "Uncle Sam" and left on the noon train yesterday for Ft. Thomas. Garrard county has furnished any number of splendid young men, but none more popular than our good friend "Billy". Every body that knows him, admires him. He has always been a particular friend to this office and has on many occasions rendered us courtesies for which we shall always be grateful.

He is patriotic, every inch of him, and has done valiant services for the Liberty Bonds, making several speeches over the county in its interest. He leaves here with the hearty good wishes of a host of friends, who wish him God speed in the patriotic cause, for which he is willing to give his life. His popularity is attested to, by the numerous entertainments, that have been given in his behalf, among them being a "storm party" at the Puritan last Friday evening.

RED CROSS WORKERS

Should Take Courage From This.

A soldier recently expressed appreciation of the work and support of the women of the country. "Its like this", he went on eagerly, "when I was at college on field day we were doing a little bit of a Marathon. When we swung round the track where my little sweetheart sat, out of the noise of shouting and clapping I could hear her voice cheering me. Whenever I felt myself losing, that wistful treble note kept going, and gave new strength and swiftness to my feet. I kept going, and I won that race—she and I together. It's like that to us soldiers, we'll win the war knowing the women of our country are backing us."

\$202,250.00

Amount Garrard Has Raised To Date.

According to a statement issued by Chairman, B. F. Hudson, Garrard county has raised up to Wednesday afternoon, \$202,250.00 toward the Third Liberty Loan. He received a telegram from chairman Stoll, yesterday, congratulating old Garrard on the magnificent showing she has made in distributing and selling these bonds among nearly one thousand citizens. Another source of gratification to the leaders in this movement, was the fact that every bank in the county over-subscribed its quota, the Bank of Bryantsville more than doubled hers. At any rate the county has won her honor flag and she now flies from the balcony of the court house, a token of reward that can and will be pointed out with pride by her citizenship.

"OVER THE TOP"

By Sergeant Empey, to Start In Next Issue

We have secured the biggest newspaper serial feature since the beginning of the war, entitled "Over The Top", written by Sergeant Arthur Guy Empey, and the first installment will appear in our next issue. Every American father, mother, daughter, and son, should read this story, which this American boy tells in an interesting and thrilling manner, how he did his bit "Somewhere in France". His experiences are grim, but they are thrilling and lightened by a touch of humor, as original as they are true. On the back page of this issue will be found a synopsis of the story, which has twenty-seven chapters, one of which will be run every week. Start with the next issue and don't miss a copy.

DYING A NATURAL DEATH OR ASSASSINATED?

Should The People Have A Verdict Rendered In Accordance With The Facts?

The Hemp industry in ten of the best counties of the State of Kentucky, is on its death bed. Those in command should turn on the light and immediately find out whether this fibre is a necessity. If it is, it should command a reasonable price, if not the people should be informed and should not be raised. It looks as though somewhere a hidden hand has a hold on the throttle. Can the hand be found? It can and should be unearthed. Is cotton used for any of the same purposes that hemp is, is wool or is linen? These and similar questions are ones that the hemp growers of Kentucky want answered. In 1915 cotton was a drug on the market at 15 cents per pound. In 1915 hemp was worth 9 cents per pound. Today cotton has doubled, wool has doubled but hemp is only worth 12 cents.

Is this fibre used as a substitute for either wool or cotton? Let the authorities find out these facts and report to us why it is that every other farm crop and every thing the farmer buys is higher yet hemp is lower than it was this time last year. It certainly costs more to produce hemp than any fibre on the market. It requires our best land which has increased 30 per cent in value in the last few years, taxes have kept step with the advance in land and the drains for Liberty Loan, Red Cross and other worthy objects needing support in the prosecution of the war, are heavy. Cutting costs more, breaking three times what it did in 1915, in fact every operation from the breaking of the land to the cost of putting the hemp on the market has risen yet hemp is less than it was last year. It certainly looks strange to the old farmer who generally sits tight and saws wood. Is it not due the farmers of Kentucky that Congress and the Senate investigate this peculiar state of affairs? Is there a conspiracy in restraint of trade? Is there a nigger in the woodpile? Cannot Ollie James call an investigation? Can't Beckham do his part; what about Cantrill and Harvey Helm?

Can you show the farmers why the cotton men, the wool men have prospered and only the hemp grower is laboring under the burden of low prices? If you can, see what hand, if any, the International Harvester people are holding; find out why Wisconsin and other places are buying hemp seed to raise hemp, yet Kentucky growers are forced to quit the raising of the fibre? Hemp broken by machinery, half cleaned, is selling today for more on the market than our own good hand cleaned Kentucky hemp. Investigate the value of hemp by experts not controlled by the International Harvester Co., or some other firms. Find out what profit the thread miller and manufacturers made last year and what profit they are going to make this year and see if hemp is not used in conjunction with wool, cotton and linen in the making of cloth.

The statesmen of Kentucky should take up this matter at once so we can know whether to make stove wood of our hemp brakes or try to stay with the industry. Why is it you can take the Bill of Lading from Danville, Hudson and Davis, with a car of hemp consigned to an Eastern Manufacturer, and then write to the same firm about a sale of your hemp and receive no answer; the same is also true of Spears.

Have the books open and let the farmers see if there is not a combination. Does the law not furnish a redress. Bear in mind hemp one year ago was selling at \$14.50 and with the conditions heretofore mentioned, this year is selling for \$12. Don't tell us there isn't rot somewhere so rotten that a man with catarrh can smell it. Let's have the exact facts from the hemp brake to the loom. Let all the people sing "A Charge To Keep I Have A God To Glorify".

CHRISTIAN CHURCH NOTES.

(J. R. MOORMAN)

Next Sunday is "Go to Sunday School Day" in Kentucky, and we want the Lancaster school to do its part. This means that every member of the church should attend the Bible school Sunday morning 9:50. We regret to announce that there are several members of the church who are on the sick list.

The sermon subject for Sunday morning will be, "The World Crisis—A Call To Prayer."

Members of the Christian Church, what about that War Garden? Having a War Garden is almost an expression of religion these days.

We are planning to observe "Mother's Day", May 12th, in our church.

The subject of the sermonette to the children for Sunday will be "Luck".

Help us make Sunday a great day for, you will be missed if your pew is empty.

Parents of the Lancaster Christian church, help your minister in securing the presence of the children in the church worship. Request your children to remain for the worship each Sunday.

AUCTION SALE

—OF—

193 ACRES OF LAND

—ON—

WEDNESDAY, MAY 8, AT 9:30

Located at the city limits of Stanford, Lincoln County, Kentucky, on Somerset pike.

This is tobacco, hemp, wheat and corn land, well fenced and well watered, in high state of cultivation, very fertile, been well taken care of, splendid frontage on two pikes and susceptible of advantageous division, with beautiful building sites on either pike.

The land will be sold in LOTS and "BABY FARMS", and one tract of about 120 acres.

In looking over the farm if there is any particular part the prospective buyer wants let me know, as it is a plain business proposition for me to sell it the way the buyer wants it.

Remember land values are on the increase and I will sell this farm with possession at once for less than it will bring this Fall, so the purchaser will get the crops and a profit if he wants to sell.

Some of the land is in wheat, some plowed now ready to go in tobacco, hemp or corn, and the balance in blue grass.

EASY TERMS.

It sells at the "High Dollar" and those who know me know that it will be cut loose and sold.

This land is known as the "Baughman Farm" and will be one of the "BIG SALES" of the year, as H. C. Baughman will sell at the same time and place all of his live-stock and farming implements, consisting in part of 15 fine mules, 10 work and brood mares, a mule jack, a herd of registered Aberdeen Angus cattle, 8 jersey and red milk cows, 115 head of hogs, sows and pigs, all up-to-date farming implements and machinery.

Dinner Served. I have made arrangements with Hughes and McCarty of Stanford, to show the land before day of sale, so see them or me for further particulars.

WORTH \$1,000 A BOTTLE IS VALUE CHATTANOOGA MAN PLACES ON VIN HEPATICA

"I wouldn't take \$1,000 for what one bottle of Vin Hepatica has done for me," says Mr. L. A. Cantrell, aged 75, chair worker of Miller avenue, Chattanooga, Tenn.

"It is worth \$1,000 a bottle. I have been troubled with kidneys for years, catarrh of the head and stomach. After eating a few bites my stomach would swell up like a pumpkin. I had the cramps, was fluky, had to be up almost every hour of the night on account of the condition of my bowels.

"But Vin Hepatica has changed all that. I don't have to get up at all in the night. I now eat potatoes, beans, onions—anything. I had about decided I could not nor would not live another week, but after I saw in the papers what Vin Hepatica had done for others in the same fix, I thought I would try it and now feel better than I have felt in forty years. Have put in 2½ days solid work this week and am going to start in for full time Monday.

R. E. McRoberts.

"I have passed my 75th year and I could not have held up much longer the way I was troubled. But Vin Hepatica was certainly a life-saver to me and I heartily recommend it to my friends."

The fact is, Vin Hepatica is a Nature medicine and not a patent nostrum. It is a combination of eight of the finest herbal remedies known to medical science, remedies which are prescribed nearly every day by the leading physicians of the world, and they are all combined into one great Nature medicine for the kidneys, liver, stomach and bowels, and for toning up the system. Nothing is finer for anyone who is troubled with the stomach or weak and run down condition.

We strongly recommend this great Nature remedy. Come and get a bottle and try it, on our recommendation. You will like it and it will do you good.

LADIES OF REDCROSS

Following Footsteps of Their Fore-Mothers
In Responding To War Needs.
Some Interesting History.

A certain aged lady of Tennessee has knitted so many socks, and knitted them so beautifully, for the Allies that she has received a royal letter of thanks from King George of England. In her young days she "turned off" a pair a day for the gray-clad boys. In recalling her memories she declares the knitters of to-day know nothing of the urgency of war as experienced by our fore-mothers during our late civil strife.

Tho our own State was, for the most part, merely a thoroughfare through which the armies passed and repassed, yet the times were imperative, and the demands were nobly fulfilled by those "dear dead women", our ancestresses of the '60's, themselves but a generation or so from pioneer days when the alternative was to be staunch and devoted, or perish. Our own good town lay in the route of travel from the South to Camp Nelson, and before the very doors of our citizens in the passing troops might be seen something of the hardships of soldiering. The compassion of our citizens was touched, and our women had full play for quick thought or tender touch in their reaction to the appeal of the hour.

A few instances are but typical of the general attitude of helpfulness.

At the establishment of Camp Dick Robinson the government found it impossible to fulfill its requirements, and for lack of tents, recruits lay in a grove of sugar maples. From exposure and lack of proper nourishment, so many fell ill that the hospital accommodations of the camp were inadequate, and the neighboring dwellings were commandeered, morally at least, for the service of the stricken. At the Hoskins home, immediately across the road from the camp, a hospital ward was improvised in the salon parlor, and the late Mrs. Eliza Farris, then a young daughter of the house, devoted her skill as a practical nurse to the sick attending daily, not only the ones at her home, but those in the neighboring houses, and in the camp hospitals. Gratefully she was called by the soldiers, the "Angel of Camp Dick".

Dr. Jennings Price, tho a staunch Southern sympathizer, was held in respect by the enemy that more than one unfortunate fellow-townsmen menaced by a prison term at Camp Nelson, owed his averted fate to Dr. Price's intervention. Dr. Price opened his home to a stricken Southern officer who passed there a successful convalescence, reclaiming health under the ministrations of the Doctor's wife, the late Mrs. Susan A. Price.

At the arrival upon the town of a Southern army, the late William H. Kinnaird, Esq., cashier of the Federal Bank of the town, hurried with bags of specie to the neighboring house of Mrs. Sarah Crowe Cook, hoping to secrete them there. A Confederate officer being in the house at the time, Mrs. Cook instantly dropped them into a trunk at hand, and by way of camouflage tossed over it the frivolous, inconsequential tulle party gowns of her grand-daughters. (These young girls became Mrs. Ellen Owsley and the late Mrs. Marie Grainger) Camouflage was as successful then as now, and the bank status was saved by the aid of a woman's quickness and coolness.

One house-holder received word from Captain Dudley Denton, (father of Judge James Denton of Somerset) that he would arrive the following day with a body of one hundred men to be fed and quartered for the night. There was much ado in preparation. The men came, and were duly provisioned with food and sleeping space. Her active sympathy not exhausted by the days task of caring for so large a body of guests, as a parting expression of graciousness, the mistress of the house sent a negro boy among the soldiers to collect their socks. She had her slave women wash and dry them, and had them returned to the soldiers before they began their march at day-break. The woman whose quick sympathy impelled this simple service was the late Mrs. Eliza Jennings Lusk. (From child-hood Mrs. Lusk's heart must have been sensitive to the hardships of soldiering, her father, as a young man having been in Indian warfare in St. Clair's campaign, and later, as general of the standing militia, having led the Garrard County men to the north county in the War of 1812).

With a background of such womanly service it is but logical

that the Garrard County women are to-day so devotedly doing their bit. And the generous giving of their time and their talent to the work of the Red Cross is but atavistic of the response in the hour of need made by their noble fore-mothers.

LANCASTER INSURANCE MAN TELLS OF FRIENDS 'RECOVERY

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder trouble and that an operation was necessary. Some one persuaded him to try May's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." It is a simple, harmless preparation that removes the mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

A FAMILY MEDICINE

In Her Mother's Home, Says This Georgia Lady, Regarding Black-Draught. Relief From Head-ache, Malaria, Chills, Etc.

Ringgold, Ga.— Mrs. Chas. Gaston, of this place, writes: "I am a user of Thedford's Black-Draught; in fact, it was one of our family medicines. Also in my mother's home, when I was a child. When any of us children complained of headache, usually caused by constipation, she gave us a dose of Black-Draught, which would rectify the trouble. Often in the Spring, we would have malaria and chills, or troubles of this kind, we would take Black-Draught pretty regular until the liver acted well, and we would soon be up and around again. We would not be without it, for it certainly has saved us lots of doctor bills. Just a dose of Black-Draught when not so well saves a lot of days in bed."

Thedford's Black-Draught has been in use for many years in the treatment of stomach, liver and bowel troubles, and the popularity which it now enjoys is proof of its merit.

If your liver is not doing its duty, you will suffer from such disagreeable symptoms as headache, biliousness, constipation, indigestion, etc., and unless something is done, serious trouble may result.

Thedford's Black-Draught has been found a valuable remedy for these troubles. It is purely vegetable, and acts in a prompt and natural way, regulating the liver to its proper functions and cleansing the bowels of impurities. Try it. Insist on Thedford's the original and genuine. E 79

U. S. Must Cut Use Of Wheat by One-Half

**America Consumed 42,000,000 Bushels Monthly.
From Now Until Harvest Must Use
Only 21,000,000.**

**RATION PER PERSON IS 1½ POUNDS
OF WHEAT PRODUCTS WEEKLY**

**Military Necessity Calls for Greater Sacrifice Here—Allied War
Bread Must Be Maintained—Our Soldiers and
Sailors to Have Full Allowance.**

If we are to furnish the Allies with the necessary proportion of wheat to maintain their war bread from now until the next harvest, and this is a military necessity, we must reduce our monthly consumption to 21,000,000 bushels a month, as against our normal consumption of about 42,000,000 bushels, or 50 per cent. of our normal consumption. This is the situation as set forth by the U. S. Food Administration at Washington. Reserving a margin for distribution to the army and for special cases, leaves for general consumption approximately 11½ pounds of wheat products weekly per person. The Food Administration's statement continues: Many of our consumers are dependent upon bakers' bread. Such bread must be durable and therefore, requires a larger proportion of wheat products than cereal breads baked in the household. Our army and navy require a full allowance. The well-to-do in our population can make greater sacrifices in the consumption of wheat products than can the poor. In addition, our population in the agricultural districts, where the other cereals are abundant, are more skilled in the preparation of breads from these other cereals than the crowded city and industrial populations.

With improved transportation conditions we now have available a surplus of potatoes. We also have in the spring months a surplus of milk, and we have ample corn and oats for human consumption. The drain on rye and barley, as substitutes, has already greatly exhausted the supply of these grains.

To effect the needed saving of wheat we are wholly dependent upon the voluntary assistance of the American people and we ask that the following rules shall be observed:

1. Householders to use not to exceed a total of 1½ pounds per week of wheat products per person. This means not more than 1½ pounds of Victory bread containing the required percentage of substitutes and one-half pound of cooking flour, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, all combined.

2. Public eating places and clubs to observe two wheatless days per week, Monday and Wednesday, as at present. In addition thereto, not to serve to any one guest at any one meal an aggregate of breadstuffs, macaroni, crackers, pastry, pies, cakes, wheat breakfast cereals, containing a total of more than two ounces of wheat flour. No wheat products to be served unless specially ordered. Public eating establishments not to buy more than six pounds of wheat products for each ninety meals served, thus conforming with the limitations requested of the householders.

3. Retailers to sell not more than one-eighth of a barrel of flour to any town customer at any one time and not more than one-quarter of a barrel to any country customer at any one time, and in no case to sell wheat products without the sale of an equal weight of other cereals.

4. We ask the bakers and grocers to reduce the volume of Victory bread sold, by delivery of the three-quarter pound loaf where one pound was sold before, and corresponding proportions in other weights. We also ask bakers not to increase the amount of their wheat flour purchases beyond 70 per

cent. of the average monthly amount purchased in the four months prior to March 1.

5. Manufacturers using wheat products for non-food purposes should cease such use entirely.

6. There is no limit upon the use of other cereals, flours, and meals, corn, barley, buckwheat, potato flour, et cetera.

Many thousand families throughout the land are now using no wheat products whatever, except a very small amount for cooking purposes, and are doing so in perfect health and satisfaction. There is no reason why all of the American people who are able to cook in their own households cannot subsist perfectly well with the use of less wheat products than one and one-half pounds a week, and we specially ask the well-to-do households in the country to follow this additional programme in order that we may provide the necessary marginal supplies for those parts of the community less able to adapt themselves to so large a proportion of substitutes.

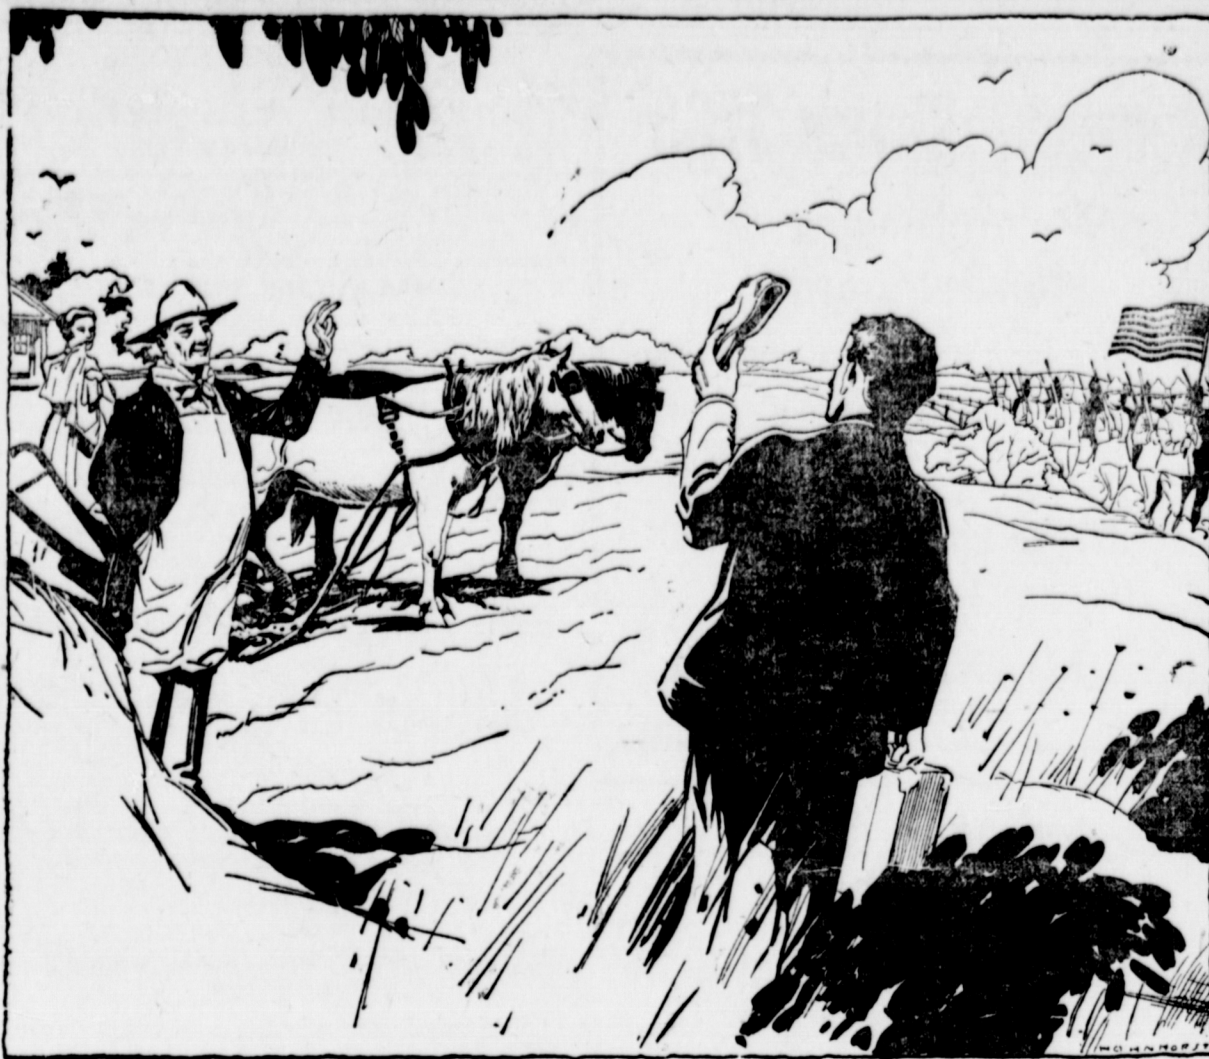

In order that we shall be able to make the wheat exports that are absolutely demanded of us to maintain the civil population and soldiers of the allies and our own army, we propose to supplement the voluntary co-operation of the public by a further limitation of distribution, and we shall place at once restrictions on distribution which will be adjusted from time to time to secure as nearly equitable distribution as possible. With the arrival of harvest we should be able to relax such restrictions. Until then we ask for the necessary patience, sacrifice and co-operation of the distributing trades.

ALLIED FOOD SHIPMENTS REACH LARGE TOTAL

A general idea of the quantity of food sent to European allies by the United States from July 1, 1914, to January 1, 1918, is given by figures just announced by the U. S. Food Administration. In that period the United States has furnished complete yearly rations for 57,100,933 people. In addition there was enough extra protein to supply this portion of the diet for 22,194,570 additional men.

The total export of wheat and wheat flour to the three principal allies is equivalent to about 384,000,000 bushels. Pork exports for the 3½ years amounted to almost 2,000,000,000 pounds. Exports of fresh beef totaled 443,484,400 pounds. The amount of food exported to Russia is negligible compared with that sent to the western allies.

The Farm Is No Exception

Some farmers argue that the United States Government cannot expect them to increase their output when so many of their best men are being taken away for military service.

Of course, the farmer has a hard problem to meet, but so has everyone in these days.

The farm is no exception. Farm workers must go to the front just as well as factory workers and people in all other walks of life. And in spite of men leaving, the output of the farm and factory MUST be increased and money must be found to win the war.

The more the farmer or the manufacturer produces the greater his income and consequently the more LIBERTY BONDS he can buy to furnish money to help win the war.

Your men and boys who leave the farms to go to the front need your help. By buying LIBERTY BONDS you will do your share in bringing them back safely home as soon as possible.

Great Wheat Stocks Isolated.

It's the shortage in ships that is putting the Allies and the United States on wheat rations. Great stocks of wheat are isolated in India, and Australia. At great sacrifice in ship space and use the Allies are forced to secure some wheat from Argentina.

On January 1, Australia had stored 100,000,000 bushels of wheat that was ready for export—but there were no ships. Then came the new crop with an exportable surplus of 80,000,000 bushels. Now Australia has approximately 180,000,000 bushels waiting for ships.

India, at the same time, had 70,000,000 bushels of wheat stored for export. During April 50,000,000 bushels more out of the new crop will be added to the pile.

Argentina closed the last shipping season with 11,000,000 bushels of wheat left in the stock available for export. The new crop will add 135,000,000 to the left over.

It is not a problem that the wheat does not exist in the world—it is entirely a problem of shipping, which has thrown on America the obligation of dividing our stock with the Allies.

PREPARE TO BATTLE CORN STALK BEETLE

Many Growers in Southern States
Reported Injury to Crop.

Damage Was Quite Severe Wherever
Soil Was Such as to Sustain Grub
—Control Measures Recommended by Entomologists.

(Prepared by the United States Department of Agriculture.)

Last year a corn pest, described by entomologists of the United States department of agriculture as the rough-headed corn stalk beetle, appeared in many parts of the South. Many corn growers of Texas, Georgia, Louisiana, Arkansas and Alabama reported injury to their corn by this beetle, the damage being quite general and severe wherever the soil was such as to sustain the grub.

The beetle varies somewhat in size, according to the entomologists, but usually measures about one-half inch in length. It is a stout, hard-shelled creature, jet black in color. It is thought to be distributed only in the Southern states. The damage is done wholly by the adult and consists in boring into the outer wall of the stalks immediately below the surface of the ground, making a large ragged opening, and destroying the tender growing point, or "heart," upon which the beetle feeds. The damage is done only during spring and early summer. Field observations show that outbreaks, for reasons as yet imperfectly understood, do not necessarily recur in successive years.

A summary of control measures recommended by the entomologists and described in detail in the bulletin may be outlined as follows:

1. Eliminate all old pastures or waste land, especially low, moist areas, and drain such lands thoroughly.
2. Pasture hogs in waste or pasture lands that cannot be conveniently drained and cropped.
3. Plant corn early, say, about April 20, for Tidewater Virginia, and earlier for more southerly localities.
4. Give liberal applications of barnyard manure or commercial fertilizers whenever practicable.
5. Employ children or cheap labor to collect and destroy the beetles when a field first shows injury.
6. Do not allow corn to follow sod if possible to avoid it.
7. Plow sod land in late summer and early fall in order to destroy the pupae of the rough-headed cornstalk beetle.

TREAT CHICKENS FOR WORMS

Massachusetts Poultry Raiser Recommends Remedy to the Agricultural Department.

(Prepared by the United States Department of Agriculture.)

A remedy for worms in chickens that a Massachusetts poultry raiser found "very successful," according to his letter to the United States department of agriculture, follows:

"Give the chickens no food or water for 24 hours before treating; then feed them half the usual amount of ground feed, in which has been mixed finely chopped tobacco stems mixed for two hours in all the water they will absorb. One pound of tobacco stems (weighed before soaking) is sufficient for 100 birds. Two hours after the chickens have eaten the medicated mash, give the one-fourth of the usual ration of ground feed mixed with water in which Epsom salt has been dissolved, using 11 ounces of Epsom salt for 100 birds.

"To reduce the chances of further infestation all manure and loose dirt should be removed from the chicken yard, and the pens and roosts thoroughly scalded and cleaned with hot water."

GREAT CARE FOR LIVE STOCK

Animals Represent Considerable Capital and Should Receive Proper Feed and Shelter.

Raising livestock requires a higher order of intelligence and greater care than growing crops. Animals must have care and attention. They represent considerable capital and for this reason it is highly desirable that they be fed and sheltered. That is one reason why men who raise live stock are generally very alert and progressive.

HANDPICKING OF BEAN SEED

Not Long Nor Laborious Job as They Are Larger Than Wheat or Barley—Keeps Crop Pure.

The handpicking of the beans is not a long nor a laborious job as the bean is much larger than the barley or wheat grain. Those who have tried it declare most enthusiastically in favor of this careful method of bean selection. After the beans have once been handpicked it is relatively easy to keep the seed pure.

EVERY INSTINCT TELLS US WAR MUST GO ON

—KIPLING

Plea of English Writer to His Own People Is Applicable to All Americans

POET PAYS HIS OWN TOLL— THE LIFE OF HIS ONLY SON

Without an Allied Victory, He Declares, Earth Becomes Hell Without Hope

(Rudyard Kipling knows war. He knows world politics and relations. He knows Germany. And he has paid his toll—the life of his only son—to defeat her. Because of these things what he has to say carries a message to us over here. Of America, too, it is true that "Nothing else under Heaven matters today except that the war shall go on to that end." There is no way of carrying it on unless we let America have the money to use for it. Kipling gives some straight, sound, reasons why the people of this country must buy Liberty Bonds.—Editor.)

By RUDYARD KIPLING,
(In a Speech at Folkestone.)

From time to time the representatives of the Allies meet together and lay down what the war-aims of the Allies are. From time to time our statesmen repeat them. They all agree we are fighting for freedom and liberty, for the right of small States to exist, and for nations to decide for themselves how they are to be governed. All this we understand and perfectly believe. That is the large view of the situation. What is the personal aspect of the case for you and me?

We are fighting for our lives, the lives of every man, woman, and child here and everywhere else. We are fighting that we may not be herded into actual slavery such as the Germans have established by force of their arms in large parts of Europe. We are fighting against eighteen hours a day forced labor under the lash or at the point of the bayonet, with a dog's death and a dog's burial at the end of it. We are fighting that men, women, and children may not be tortured, burned, and mutilated in the public streets, as has happened in this town and in hundreds of others. And we will go on fighting till the race who have done these things are in no position to continue or repeat their offense.

No Half-way House 'Tween Victory and Defeat.

If for any reason whatever we fall short of victory—and there is no half-way house between victory and defeat—what happens to us? This: Every relation, every understanding, every decency upon which civilization has been so anxiously built up will go—will be washed out, because it will have been proved unable to endure.

The whole idea of democracy—which at bottom is what the Hun fights against—will be dismissed from men's minds, because it will have been shown incapable of maintaining itself against the Hun. It will die; and it will die discredited, together with every belief and practice that is based on it.

The Hun ideal, the Hun's root-notions of life, will take its place throughout the world. Under that dispensation man will become once more the natural prey, body and goods, of his better-armed neighbor. Women will be the mere instrument for continuing the breed, the vessel of man's lust and man's cruelty; and labor will become a thing to be knocked on the head if it dares to give trouble, and worked to death if it does not.

And from this order of life there will be no appeal, no possibility of any escape. This is what the Hun means when he says he intends to impose German KULTUR—which is the German religion—upon the world. This is precisely what the world has banded itself together to resist. It will take every ounce in us; it will try us out to the naked soul.

Our trial will not be made less by the earnest advice and suggestions that we should accept some sort of compromise, which means defeat, put forward by Hun agents and confederates among us. They are busy in that direction already.

— Or Earth Becomes A Hell Without Hope.

But be sure of this: Nothing—nothing we may have to endure now will weigh one featherweight compared with what we shall most certainly have to suffer if for any cause we fail of victory.

The war must go on. The more we have suffered in this war, the more clearly do we see this necessity. Our hearts, our reason, every instinct in us that lifts us above the mere brute, show us that the war must go on. Otherwise earth becomes a hell without hope. The men, the ships, the munitions must go forward to the war, and behind them must come the money, without which nothing can move. Where our hearts are there must our treasure be also. There has been a great deal of money spent in England lately, several millions a day for the last twelve hundred days. That means that many people have had the chance of earning more money than they could have earned in peace times.

Our security for our loan is not only the whole of the British Empire, but also the whole of civilization, which has pooled its resources in men, money, and material to carry on this war to victory. Nothing else under Heaven matters today except that the war shall go on to that end.

When the selective draft law was passed and the government began the mobilization of an army, many were the predictions that it would meet with bitter opposition from the people. Members of Congress even were heard to remark that they would not choose between being a conscript and being a convict. But contrary to all such gloomy views, the work has been going smoothly on and the people have quietly adapted themselves to the law's requirements, till now the calling of men under its provisions is regarded as a mere matter of course.

The selective draft law is a signal victory for sound government. It recognizes the fundamental fact that man owes a debt to government, and is bound to pay that debt on demand—that there can be no exemption so long as the man himself is physically and mentally fit to pay. Nothing but physical or mental unfitness can exempt any man from the obligation.

But isn't there a further obligation resting upon the beneficiaries of government? Is life and personal service all of the debt?

Getting down to the gist of the question, if the government has the right to demand the services of your son, has it not the right to demand the services of your dollars as well? Is property more sacred in the eyes of the law than life? Life and personal service alone can never win the war. These must be backed up and sustained by the money and means of the nation. But is the burden to fall entirely on the government of raising these means of sustenance?

Before many more months of this war have passed, the people of this country are going to be rudely aroused to the fact that, viewed in the light of justice and right, NOTHING should be exempt. Life is the most sacred of our possessions. Yet life is demanded by our government, and we see no injustice in the demand. But as soon as our precious dollars are demanded we raise a holy howl.

Our government is fighting for its existence. The life and death struggle is now on, and shall any citizen of this government dare to claim that his country has not the right to his last dollar if that should be needed to insure victory?

So long as the bond issues of the government are readily subscribed, however, indications are that means will be taken to finance the war. Should these issues fail of subscription the real test as to the ultimate authority of government will come.

CHRISTIAN CHURCHES

Of Garrard County Respond Generously
To Men and Millions Movement.

In the Men and Millions Movement Emergency Drive, conducted by the Disciples of Christ, during the month of April, the Christian Churches of Garrard have done their part well.

This drive was not put on to reach a goal, not to make a record, not even to realize a divine ideal, but our leaders saw the compelling needs that could not be met without this special effort, and we are glad to report that Garrard has gone far beyond her apportionment. In ninety days, two and a half million dollars are to be raised by the entire brotherhood.

The Christian churches of Garrard County, were asked for three thousand seven hundred and fifty dollars. We are glad to say the Lancaster Christian church alone gave that amount, and the churches in the county have done equally as well.

Mr. Moorman, county chairman, visited all the country churches, gave two, and gave instructive talks local committees in each congregation and to these committees and their pastors much praise is due.

Following is a report handed in to Mr. Champ, County Treasurer, of the drive, to present date.

Lan. Christian church	\$3,750.00
Fair View	210.00
Pleasant Grove	160.00
Antioch	50.00
Level Green	32.00

Total \$4,202.00

Paint Lick, Scotts Fork and Bethel, have not reported.

The County Committee wishes to thank all who helped to make this report possible. To have failed to meet this War Emergency drive would have brought shame to every Disciple of Christ in the County. It has taken consecration of time, dedication of money and universal co-operation, but it is the answer to the call of Christ in this supreme hour.

ENTHUSIASTIC

Is Campaign Manager For Red Cross
Drive To Raise Garrard's Quota
This Month.

Campaign Manager, W. A. Farnau, of the Garrard County Chapter of the Red Cross, has returned from Louisville, greatly impressed and enthusiastic over the plans for the big work ahead of this splendid organization.

The plan of State Chairman John R. Downing, to have a meeting of the Red Cross chairman there provided a real inspiration and sent every one of the large number that attended away filled with greater love for the work and with a reconsecration of the organization that is doing so much for those who are fighting our battle and for the stricken countries which groan under the despoilation of a brutal foe, which spares neither women nor children in their cowardly and savage warfare.

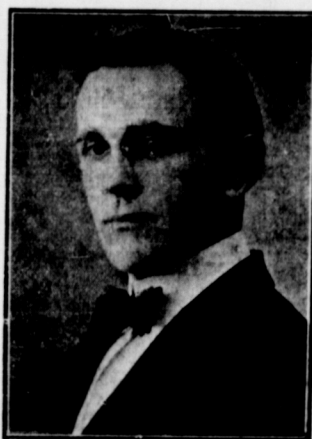

The speeches of R. F. Grant, manager of the War Fund Lake Division, and the soldiers and Red Cross men, just returning from the front in France, created great enthusiasm, mingled with horror, as they told of the great work the consecrated men and women of the Red Cross are doing and of the un-

speakable cruelties and vandalism of the hell hounds of the blood-lusting ruler of the German Empire.

The early sessions of the body were held in the spacious auditorium of the Seelbach, where lunch was served, Tuesday noon, and the meeting ended that night with an immense popular gathering at the First Christian church, where Capt. Travers and others from the battle enthusiasm which swept through front added further to the fire of the hearts of all who were fortunate to be present.

During the meeting many plans for preparing for raising the State's quota of \$900,000, with its final drive during the week of May 20-27 were discussed by speakers who have given the question earnest thought. The success of the meeting was most pronounced and Chairman Downing is filled with renewed hope that he will be able to report the contribution of the full quota together with a large overplus. During one of his short speeches he struck a popular chord when he said: "the man who shirks his duty to become a soldier when called is spoken of as a slacker. I want to say that the man who only gives \$5.00 when he is able to contribute \$500.00 to the Red Cross is a dodger and a mean one at that," and his hearers unanimously agreed that the terms should be applied to the deplorable class of individuals, who will not give their means when our boys are giving their lives to make the world fit to live in.

Mr. Farnau has asked for a business meeting at the court house next Monday evening and wants all who are interested in helping to put Garrard county "over the top" with her quota, to be on hand that evening, May 6th., at the court house.

PREACHING EVERY SUNDAY

At Presbyterian Church.

It is very gratifying to the friends of Rev. H. S. Hudson and quite a satisfaction to the members of his congregation, to know that he has been called to preach every Sunday in the month, at the Presbyterian church. Since their location in Lancaster, Mr. and Mrs. Hudson have made a host of friends and the church, under his watchcare, has made splendid progress and all are glad to know that he will now devote his entire time here. Heretofore he has been preaching one Sunday in the month at Buena Vista but the last Presbytery relieved him of that charge.

Mr. Hudson is the chairman of the Garrard County Red Cross chapter and the work that he has done in this worthy cause, has endeared him to the people of the entire community.

OFF FOR THE TRAIN-

ING CAMPS.

Garrard County has furnished twenty-six of her splendid young men during the past week, for military service in the United States Government. Fifteen left here last Friday for Camp Zachary Taylor and eleven yesterday: seven of the latter going to Ft. Thomas, the other four to Camp Taylor.

Those leaving last Friday were: Burnam T. West, Troy McCoy, Green Brock, Herbert Shearer, Adolph D. Joseph, Webb Christopher, Everett East, Elmer East, Louis Fowler, John Middleton, Jasper Mathews, Virgil Reynolds, William T. Green, Cornelious Pendleton, and Thurman Teater.

The seven going to Fort Thomas yesterday, Robert McCreary, Geo. Lunsford, Luther Brooks, Chas. S. Ellis, William P. Rogers, Willis W. Bell, and William F. Miller, the latter being in charge of the bunch.

Those leaving yesterday afternoon for Camp Taylor were: Roy S. Dean, in charge and three colored boys: Eddie Thomas, John L. Burton and Wesley Brown.

In response to a telegram from Government headquarters received at the local Exemption Board, asking for the exact number of men in first class and ready for service, the following report has been made by the secretary, Mr. John M. Farra, as of April 30th, 1918.

Men in Class One physically examined and accepted for general Military service, white 203, colored 92.

Men in Class One physically examined and accepted for limited Military service, white 11, colored 3. Delinquents in class One, white 2, colored 1.

Registrants in Class One. Emergency Fleet Corporation list, none. Men in Class One under Group "E", none.

Men inducted into Military Service Class One, since December 15th, 1917, white 26, colored 31.

Men called but not entrained, white 8, colored, 3.

Men in Class One, not physically examined, white 2, colored, 1.

Of a total of 295 placed in Class 1, 68 have already been called into the service, leaving 227 remaining in this class.

NOTICE.

All registrants must keep in their possession, their first registration cards and also their final classification cards. This is very important for these cards must be returned to the Local Exemption Board, when registrant is called into the service.

John M. Farra, Secty.,
Exemption Board.

AUCTION

OF 107 ACRES RICH SAND-
STONE LAND.

On Wednesday, May 15th., at 10 o'clock, the D. A. Thomas Realty Agency, will sell for the high dollar, Henry Teater's farm of 107 acres, situated near Buckeye, Garrard county Ky. Remember this farm is in high state of cultivation, hemp and tobacco land and will be sub-divided into smaller tracts, and bear in mind too, that such land is in strong demand and daily advancing in price.

Unquestionably there will be no lull in farming lands this year, sales are being reported daily and at advancing prices. Read the detail advertisement in this issue and attend this sale.

What Makes This Possible?

Why is it that American farmers today are able to go about their work in peace, to cultivate and develop their farms and to get the full results of their work in freedom and peace?

Why is it that unlike the devastated districts of Europe, their farms are peaceful and prosperous and no one interferes with their reaping the full reward of their labors?

Just one thing—the United States Government.

The United States Government is simply another way of speaking of the people of America, because, of course, the people are the government.

As a part of the United States Government you have a share to perform in protecting this country from the enemy and your share is lending money by buying LIBERTY BONDS.

Remember that LIBERTY BONDS are absolutely safe, pay a liberal rate of interest and return every penny you invest.

A Business Should be as Big as Its Job

If bigness is of benefit to the public it should be commended.

The size of a business depends upon the needs which that business is called upon to serve. A business should be as big as its job. You do not drive tacks with a pile-driver—or piles with a tack-hammer.

Swift & Company's growth has been the natural and inevitable result of national and international needs.

Large-scale production and distribution are necessary to convert the live stock of the West into meat and by-products, and to distribute them over long distances to the consuming centers of the East and abroad.

Only an organization like that of Swift & Company, with its many packing plants, hundreds of distributing houses, and thousands of refrigerator cars, would have been able to handle the varying seasonal supplies of live stock and meet the present war emergency by supplying without interruption:

First—The U. S. soldiers and the Allies in Europe by shipping as much as 800 carloads of meat products in a single week!

Second—The cantonments in the United States.

Third—The retailers upon whom the American public depends for its daily supply of meat.

But many people ask—Do producers and consumers pay too much for the complex service rendered?

Everyone, we believe, concedes the efficiency of the Swift & Company organization—in performing a big job in a big way at a minimum of expense.

Swift & Company's total profit in 1917 was less than 4 cents on each dollar of sales of meat and by-products. Elimination of this profit would have had practically no effect on live stock and meat prices.

Do you believe that this service can be rendered for less by any other conceivable method of organization or operation?

These questions and others are answered fully and frankly in the Swift & Company 1918 Year Book sent free on request.

OUR BOYS "OVER THERE" ENJOY TOASTED CIGARETTES.

Through the patriotism of the citizens of this country thousands of smoke kits are being distributed to American soldiers in France. Authorities agree that men in the trenches need cigarettes almost as much as food and munitions.

Doctors, nurses, and commanding officers all join in the demand which has awakened in this country a great movement to keep our boys supplied with smokes.

Millions of the famous LUCKY STRIKE Cigarettes are "going over" all the time. There's something about the idea of the toasted cigarette that appeals to the men who spend their time in cold, wet trenches and billets.

Then, too, the real Kentucky Burley tobacco of the LUCKY STRIKE cigarette gives them the solid satisfaction of a pipe, with a lot less trouble.

"HOGGING" CORN AND BEANS.

A few suggestions which will enable you to improve you to improve your land, make more pork from an acre and keep your hogs in better health.

Due to the scarcity of labor many farmers of this county are planning to "hog down" a field of corn this year. This is an excellent idea and farmers know from practical experience that it is both a profitable practice and one that will save labor. In other words, the farmer sits around and lets the hogs do the work.

Corn fed alone to hogs is not a balanced ration, i. e. they are not make as quick or as cheap gains as when they have some protein or muscle and bone building property in their food. Clover has this compound, so have soy beans. Every farmer knows that corn and clover are the ideal feeds for hogs, but they are probably not aware that corn and soy beans are just about as good.

Every farmer in Garrard County who is planning to plant corn to hog down, should also plant soy beans at the same time. This method is very simple and no man can afford to leave off beans from the corn which he is planting to hog down. I have talked to farmers from all over Kentucky, and some from Indiana, and every one who has followed it is enthusiastic. The general opinion is that one will

make just as much corn per acre as if he didn't have the beans and in addition will have the beans extra and will have improved his land.

DRILLING CORN AND BEANS.

Several methods may be employed as convenient.

First:—Get a bean attachment for your planter, thus both corn and beans may be adjusted exactly as desired; in average place corn around 18 inches and a bean 6 inches apart in the row.

Second:—Drill the corn as usual, then after field is done, immediately retrace the same tracts, using beans in the planter boxes and drill shallow. Ordinarily it requires a bushel of beans to plant 6 acres in rows with corn.

Third:—If planter has fertilizer attachment, then thoroughly mix 12 pounds of beans with the fertilizer intended for an acre and drill the mixture as fertilizer. If you are not going to use fertilizer dirt may be used.

Fourth:—Thoroughly mix the corn and beans and drill very thick in rows, being very careful to keep well mixed. It is not likely that the distribution will be uniform nor very satisfactory except for convenience on a small scale.

Fifth:—After you have planted your corn you may take a jobber and job in beans. This is too slow however, and would not advise it except on a small scale. However would advise every farmer to make his replanting beans instead of corn for replanted corn seldom does any good and beans will do

well. Also any farmer who is thinking of planting corn which will not come up very well should mix beans with it so that he will get a good stand of something.

VARIETIES TO USE.

Be sure and plant a variety of soy which will mature seed in this country. The Haberlandt, Lexington or Mikado are all good varieties for hogging. The Lexington can be bought from local seed men.

TIME TO INTRODUCE MR. BEAN TO MISS HOG.

Shoats may be turned into the field when beans are still green and the corn denting. Beans should be pulled up and fed to the hogs several days before turning them into the field so that they may become accustomed to them. The variety of food seems to keep the digestion regulated and appetites dependable. They thrive so that the owner can readily see the improving luster in hair and double curl in tail. Plant some soys with your corn for the two grow well together and thrive as companions, King and Queen of the Field. For further information address W. H. ROGERS, County Agent, U. S. Department of Agriculture.

Are You
Feeling
Old
Today?

MORE OFTEN
than is recognized do middle-aged men and women mistake kidney trouble for on-coming old age.

Tired, weak or deranged kidneys do not filter waste matter out of the blood as they should and backache, tired feeling, biliousness, sore muscles, stiff joints, rheumatic pains, irritation of the bladder, puffiness under eyes or other symptom or ailment appears.

Foley Kidney Pills

Strengthen kidneys, stimulate the bladder and tone up the liver. They help the kidneys remove the accumulating poisons and soothe and heal the passages. When the kidneys and urinary tract are doing their work perfectly, the whole system is benefited and restored to health and strength.

Louis Buckner, R. F. D. 1, Box 38, Somerset, Va., writes: "I was feeling all run down, tired, with pains in my back. After taking Foley Kidney Pills I felt like a new man and will speak words of praise anywhere I go among my friends. You can use my letter if it will be of any service at all to you." You can get Foley Kidney Pills in two sizes, 50c and \$1.00.

Hudson, Hughes and Farnau. Miss Betty Scott of the Buena Vista High school, was the guest of Miss Elizabeth Doty, Saturday and Sunday.

Mrs. B. K. Swope and J. W. Swope entertained Mrs. Wilford Dye of Liberty, Mrs. George Lucas and children, and Mr. Miller of Mt. Salem, very delightfully at dinner last Wednesday.

Delbert Cunningham, while trying his marksmanship with a loaded shotgun, received a severe cut from the recoil of the gun and was greatly alarmed for a while, thinking perhaps, the load had turned on him. A physician was summoned and the wound dressed and the little fellow suffers no bad results.

Mr. Green Estes recently had an accident to his auto, when a car

full of careless fellows who felt at this time that the earth was theirs and the fullness thereof and all of the road belonged to them by divine apportionment, ran into his car. Mr. Estes gave all the road that was possible for him to, and was going quite slow when the accident occurred. The "gentlemen" were glad enough to pay the cost on the spot without further trouble.

TWICE PROVEN.

If you suffer backache, sleepless nights, tired, dull days and distressing urinary disorders, don't experiment. Read this twice-told testimony. It's Lancaster evidence—doubly proven.

Mrs. B. F. Walter, Hill Terrace, says: "I never fail to praise Doan's Kidney Pills, for they are a most worthy remedy and have done me much good on many occasions. For several years, I have suffered from a lame and painful back. My kidneys have also been irregular in action. Doan's Kidney Pills have always removed every symptom of kidney trouble at these times." (Statement given March 20, 1908.)

ALWAYS RELIABLE.
On November 18, 1916, Mrs. Walter said: "I have the greatest confidence in Doan's Kidney Pills. I was free from kidney trouble for a long time, but recently had a slight attack. I again used Doan's Kidney Pills and they quickly relieved me."

Bristol Long Famous Port.

Bristol is one of the ancient ports of England, and three or four hundred years ago it was second only to London. From the very outset it has been connected with trade on this side of the Atlantic, and, in fact, it was out of Bristol that John Cabot sailed in 1497 on the voyage that brought him to the coast of Nova Scotia and was, therefore, the first to reach the mainland of this continent.

Some Heat.

It has been estimated that the total amount of warmth diffused by the gulf stream would cause a river of metal as large as the Mississippi to flow, or would raise from a constant winter to a constant summer temperature the whole of the air that rests upon the British Isles and France. The fogs to which England is so subject are, in a great part, owing to it, and through it the western coasts of Ireland enjoy a temperature two degrees higher than those on the East.

Best Material for Splints.
Galvanized wire netting is claimed to be much superior to wood as a material for surgical splints. It is strong, light in weight, non-absorbent and easily sterilized, and, unlike wood and plaster, gives free ventilation. The new splints are woven from wire so tempered that it can easily be pressed into shape to be bound closely upon the injured limb.

Over the Top

By an American Soldier Who Went
ARTHUR GUY EMPEY

When the Lusitania was sunk Arthur Guy Empey decided that he could not wait for his country to declare war — so he sailed without orders for England, and enlisted as a Canadian.

He recounts this incident in "OVER THE TOP" in less than five hundred words. In a few thousand more words he completes his experiences in England — and after that he is in France — for the greater part of the eighteen months before he was invalided home, in the "Front Line Trenches."

"OVER THE TOP" is the first story by one of the American soldiers who went to France, has been a real combatant and has seen long service in the trenches.

Sergeant Empey tells what it actually means and feels like:

to be wounded seven times;
to live for a year and a half with mud and rats and shells;
to be covered with "cooties" and never to get rid of them;
to go "over the top" in a charge;
to grasp for your gas helmet when a second's delay means a death;
to capture a Prussian;

to get tangled up in barb-wire with that machine gun working a few yards away;
to lie for thirty-six hours wounded and unconscious in "No Man's Land."

For a year and a half, until he fell wounded in "No Man's Land" this American soldier saw more actual fighting and real warfare than any war correspondent who has written about the war. His experiences are grim, but they are thrilling, and lightened by a touch of humor as original as the Soldiers Three. And they are True.

We take pleasure in announcing that we have secured serial rights to this remarkable story and that it will appear in installments
IN THIS NEWSPAPER It Is the Real Stuff!

The Greatest War Story Ever Written

SYNOPSIS.

CHAPTER I—Fired by the news of the sinking of the Lusitania, by a German submarine, Arthur Guy Empey, an American, leaves his office in Jersey City and goes to England where he enlists in the British army.

CHAPTER II—After a period of training, Empey volunteers for immediate service and soon finds himself in rest billets "somewhere in France," where he first makes the acquaintance of the ever-present "cooties."

CHAPTER III—Empey attends his first church service at the front while a German bomber circles over the congregation.

CHAPTER IV—Empey's command goes into the front-line trenches and is under fire for the first time.

CHAPTER V—Empey learns to adopt the motto of the British Tommy, "If you are going to get it, you'll get it, so never worry."

CHAPTER VI—Back in rest billets, Empey gets his first experience as a mess orderly.

CHAPTER VII—Empey learns how the British soldiers are fed.

CHAPTER VIII—Back in the front-line trench, Empey sees his first friend of the trenches "go West."

CHAPTER IX—Empey makes his first visit to a dugout in "Suicide Ditch."

CHAPTER X—Empey learns what constitutes a "day's work" in the front-line trench.

CHAPTER XI—Empey goes "over the top" for the first time in a charge on the German trenches and is wounded by a bayonet thrust.

CHAPTER XII—Empey joins the "suicide club" as the bombing squad is called.

CHAPTER XIII—Each Tommy gets an official bath.

CHAPTER XIV—Empey helps dig an advanced trench under German fire.

CHAPTER XV—On "listening post" in No Man's Land.

CHAPTER XVI—Two artillerymen "put one over" on Old Pepper, their regimental commander.

CHAPTER XVII—Empey has narrow escape while on patrol duty in No Man's Land.

CHAPTER XVIII—Back in rest billets Empey writes and stages a farce comedy.

CHAPTER XIX—Soldiers have many ways to amuse themselves while "on their own."

CHAPTER XX—Empey volunteers for machine gun service and goes back into the front-line trenches.

CHAPTER XXI—Empey again goes "over the top" in a charge which cost his company 17 killed and 21 wounded.

CHAPTER XXII—Trick with a machine gun silences one bothersome Fritz.

CHAPTER XXIII—German attack, preceded by gas wave, is repulsed.

CHAPTER XXIV—Empey is forced to take part in an execution as a member of the firing squad.

CHAPTER XXV—British prepare for the Big Push—the battle of the Somme.

CHAPTER XXVI—In a trench raid, preceding the Big Push, Empey is desperately wounded and lies unconscious in No Man's Land for 36 hours.

CHAPTER XXVII—After four months in a British hospital, Empey is discharged as "physically unfit for further war service."

CONSCIENTIOUS OBJECTORS ATTACKED BY ROOSEVELT

Any American Not In Favor of Fighting War Through Is Traitor, He Says.

New York, April 28.—No American has a right to a night's sleep unless during the day he has done something to aid in the war against Germany, declared Col. Theodore Roosevelt to-night in urging a large audience at the Brooklyn Academy of Music to invest in the third Liberty Loan.

"The man who does not think that it was America's duty to fight for her own sake, in view of the infamous conduct of Germany toward us, stands on a level with a man who wouldn't think it necessary to fight in a private quarrel because his wife's face was slapped," asserted the former President, prefacing an attack on the "conscientious objector."

"I would try to find out what he is conscientious about," said the Colonel. "He may be conscientious about killing somebody else; he may be conscientious about keeping his own carcass from injury."

"If he merely objects to killing someone else then send him to the front with a spade to dig trenches in the danger zone, or else put him on a mine sweeper. If he says that his conscience forbids him to do any of the necessary work of national self-defense then I would answer that my conscience would forbid me to let him vote."

"The American who is not now heart and soul in favor of fighting this war through to a victorious end is a traitor to this country and to mankind. He is unfit to live in America. He is unfit to be a free man, for his soul is the soul of a slave."

"Mothers of France" with Sarah Bernhardt as the star, should fill Romans Opera House tonight.

Ireland is untrue to herself. For centuries the term "Irishman" has stood for all that was gallant, brave, loyal and true. That she should refuse to bear her share in the great world conflict, when the very principles for which her history has been one long contention are trembling in the balance, is inexplicable. It is sincerely to be hoped that she will now accept the home rule tendered by England, submit to the same rigorous conditions England imposes on herself, and forever clear her name of the odium that must attach to it if her past course is pursued any further.

In this day of highly equipped and organized troops the expedients to which Washington's army had recourse are amusing. A story has come down in a Garrard county family from an ancestor who was a soldier in the Revolution. Upon one occasion a body of men were to be detailed for a certain service which involved a long and rough march, so that the "best shod" men were to be chosen. The men were drawn up in lines and ordered to put forward the right foot. The soldier from whom the story came, not liking the proposed "job" and having a fairly good shoe on his right foot, immediately projected his left on which there was no shoe at all to speak of, it merely being a remnant. His ruse was detected, and as punishment he was sent upon the detail.

Let us believe the soldier was more joker than slacker, for to-day his great-grandson, a lad under draft age, is eager to go to France as a Sammie, while his sister is desirous of doing her bit as a Red Cross nurse "over there."

The wheat shortage is destined to make the people of the United States acquainted for the first time in their history with the great American grain—corn. When one comes to think of it, it is really surprising how few people in our land really appreciate this grain as they should. Corn bread, rightly made, has no superior as a regular article of diet. Those who have become accustomed to its use frequently prefer it to all other bread, and insist that one never loses relish for it. Corn was the staple article of food of the American Indian, than whom a finer race, physically, never existed. It was also the mainstay of the African slaves of the South for two centuries, and on it they thrived and labored. It is acknowledged by leading physicians that corn bread is much more healthful than wheat bread, and when once one has acquired a taste for it he becomes a convert for life. It is the merest drivel, to say nothing of craven disloyalty, for any of our people to bewail a forced abstinence from wheat bread so long as we have untold millions of the best grain God ever caused to grow out of the ground.

Build Character Firmly. The character which you are constructing is not your own. It is the building material out of which other generations will quarry stones for the temple of life. See to it, therefore, that it be granite and not shale.

Chinese Cleverness. In making confectionery the Chinese are very skillful, and possess the reputation of having many secrets. They are able to empty an egg and fill it with an almond nougat without one being able to find the slightest break in the shell. They also take the entire pulp from an orange and fill it up with fruit jelly without leaving a trace of an incision in the rind.

To Clean Brass. To remove marks and discolorations from brass or gilt ornaments, picture frames, etc., dissolve a piece of soft soap the size of an egg in a pint of boiling water, then add a tablespoonful of ammonia. Wring a cloth out of the solution and gently wipe the article to be cleaned; then sponge it with care, using cold water. Finally dry with a soft cloth.

"Over the Top With the Best of Luck and Give Them Hell!"

OVER THE TOP

BY
Serg't Arthur Guy Empey

Serg't Empey's vivid and gripping story of the great war will be printed in installments in this paper.

Twenty-seven chapters of exciting adventures and heart-stirring action; events that befell this one man from the time he passed from civilian life to take his place in the human wall that stands between civilization and frightfulness.

Serg't Empey is an American who enlisted in the British Army on hearing of the sinking of the "Lusitania." He writes in a straightforward way of his own experiences "over there," of the life in which our own American boys are entering.
